[1]Perpetual BlueCat Integrity licenses are available for existing customers only.

[2]For BlueCat Integrity, Unique Active IP means any (i) active DHCP IP address or DHCP reservation or (ii) statically assigned or reserved IP address. For BlueCat Edge, a Unique Active IP means an IP address in a DNS query that is serviced by a service point. For BlueCat Micetro, a Unique Active IP means an IP address having a matching DNS record configured or observed. In all cases, count of Unique Active IPs will be determined by the applicable BlueCat product.

[3]User means any employee, contractor, consultant, agent or other party that uses a customer's network to access any services.

For our technical support and maintenance offerings, please refer to the BlueCat Customer Care Support Handbook.

We reserve the right to modify our Software and Cloud Services offerings.
